TITUS 2 ACADEMY

SUPPORT • GUIDANCE • GRACE

Tennessee families have a truly special option in Titus 2 Academy, and it's one that combines professional guidance with the heart of veteran homeschool moms. When you enroll, you're not just choosing a state-approved umbrella school, you're choosing one-on-one counseling, dependable record-keeping, beautifully prepared transcripts, diplomas, and ongoing support from women who home-schooled their own children for many years and have spent just as many years counseling other families. We understand the homeschool journey from both sides: the parent side and the administrative side. Titus 2 Academy gives Tennessee families the structure they need, the encouragement they want, and the personalized guidance that makes homeschooling through high school not only doable, but deeply rewarding.

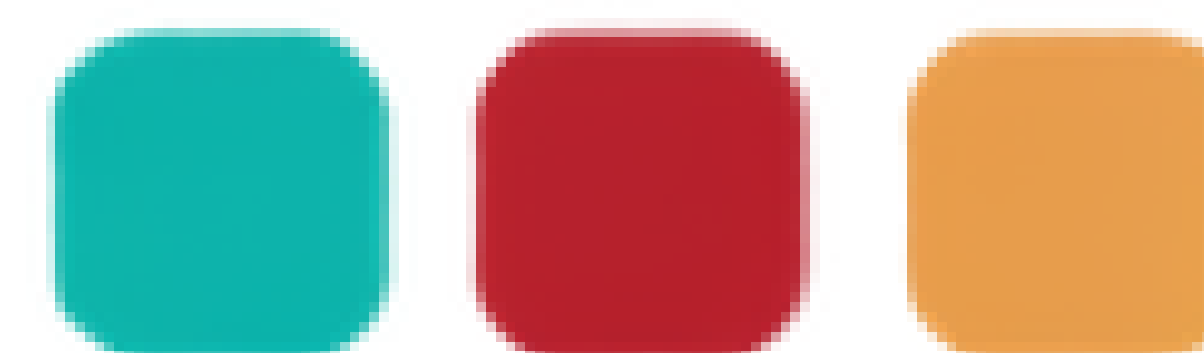

FROM OVERWHELMED TO CONFIDENT

Words cannot express how grateful I am to Margie Abbitt of the Homeschool Counseling Team for being such a blessing to my family and I! Homeschooling a child for the first time can be so overwhelming, but with Margie's guidance and support, it made the high school years so much easier! I wouldn't have been able to do it without her. My only regret is that I didn't find out about her sooner! She was always there anytime I needed her, and helped with any questions I had. She showed me what true homeschooling was really like. Thanks to her, my daughter graduated this year! I would highly recommend Margie and her team to anyone that is homeschooling their kids. Thank you, Margie, from the bottom of my heart! May God bless you always! • Sincerely, April Fuston
